WORK EXPERIENCE

WEB DEVELOPER - ACADEMIC INTERNSHIP

Living Tours Portugal - 03/2024 - 06/2024

Maintenance of the company website by creating new features and adding responsiveness to static layout pages. Development, reconstruction, and adaptation of internal system interfaces to address usability issues reported by internal clients.

Technologies: HTML, CSS, Bootstrap, JavaScript, Git, MySQL, AJAX, and PHP.

Practices: Pair programming.

WEB DEVELOPER - SUMMER INTERNSHIP

Renault Portugal - 06/2023 - 09/2023

Development of a web application for recording and managing unscheduled downtime on main production lines. Conducted field analysis to define user profiles and design according to their needs. Provided support to internal clients by demonstrating functionalities and offering detailed guidance. Utilized agile methodologies to optimize the development process and enhance user experience.

Technologies: HTML, CSS, Bootstrap, JavaScript, Git, MySQL, AJAX, PHP.

Methodologies: Scrum, Kanban.

HR ANALYST (TRAINING AND DEVELOPMENT)

Telefônica Brasil - 11/2019 - 11/2021

Integration and training of new employees in technical and behavioral aspects for B2B and B2C clients. Development and management of teams, applying communication and empathy skills to enhance customer service and leadership capabilities. Creation and development of internal training materials, as well as maintenance of administrative reports on team performance. Analysis of technical and behavioral indicators to identify opportunities for improvement.
